

TH-0802ME

Conference System Extension Controller

Features

In a large-scale meeting, if more than 64 attendance units are used, the main controller will not be able to drive all of them to work because of the limited power, thus, it is necessary to use an extension controller.

Functions:

- A six-8P-DIN socket for multiple links, and two expansion controller interface; Can be placed on the table or mounted in standard a 19-inch cabinet.

Specifications

Model	TH-0802ME
Delegate Mic Qty Per Extension Controller	≤64 units
Power Supply	AC 120V or 220V; 50-60Hz
S/N	>96dB
Cascaded Port	Two 8P-DIN ports for cascaded connection
Frequency Response	20-20KHz
THD	<0.1%@1KHz
Delegate Mic Connector	Six 8P-DIN for delegate microphone connection
Power Consumption	450W
Communication Cable	Dedicated 8 pins cable
Dimension (W×H×D)	480 x 360 x 85mm
Weight	6.8kg
