Features

* Controller of video camera to integration with audio conference system.
* Automatic turn on the spokesman into the screen through the projector.
* Capacity of connection with 6 cameras.
* Capacity of each camera of 128 presets (for ceiling mounted camera) and 62 presets (for wall mounted camera).
* Easy and convenient set up and control through the English PC software.
* Support versatile control protocol like Samsung, Pelco-D & Visca.
* Support different communicate baud rate of 2,400, 4,800, 9,600 & 19,200 for high resolution picture.
* Support different resolution screen of 800x600,1024x768,1280x1024.
* With picture frozen feature during the camera rotation, so as to enjoy a comfortable picture shift.
* Picture frozen time could be set up from PC software from 0 to 6 seconds.
* Wide AC power input of 100V to 240V.
* Hi-pot test of more than 3,500V to ensure electronic operation safety.
* Secure earth line grounded on both circuit and the metal case.
* Anti interference of static electricity up to 8,000V.

Specifications

Model	TS-0690
Description	Auto Video Tracking Controller
AC Power Supply	AC100-240V; 50~60Hz
Power Consumption	7W
Video Input	BNC x 6 Balanced input
CVBS Input	0.5V~1.5Vp-p
Input Impedance	75 Ω
Output Impedance	75 Ω
Video Output	One BNC, one RCA & one VGA
RCA & BNC Output	0.5V~1.5Vp-p
Video Bandwidth	8MHz
VGA Output	1280x1024, 60Hz
Dimension (WxDxH)	484x210x44mm
Weight	3Kg
Color	Black
