# DIS is all about conferencing

Clarity, precision and reliability are absolutely essential in today's world when important information is shared and decisions made in conferences and meetings. The DCS 6000 system is fully digital based on an innovative technology, providing crystal clear audio everywhere. The most efficient solution when the users need to hear and be heard.

Attractively styled microphone units are available in portable, tabletop or flush-mounted versions, all with lockable, RF resistant gooseneck microphones and optional voting facilities. The system is easily configured - and controlled either from the central unit - or managed by the SW 6000 Conference Management System.

All DCS 6000 system components are connected in the DCSLAN with standard flexible shielded Cat 5 cables to facilitate ease of installation and maintenance.

- Superior audio quality
- Intuitive, user-friendly operation
- Scalable to meet the requirements of each meeting
- Fully integrated with web streaming and archiving
- Easily interfaced to control systems such as AMX/Crestron
- Audio encryption for security needs
- The system meets every meeting's varying requirements
- Future-proof, upgradeable system design

The DCS 6000 Digital Conference System has specialized in meeting all conferencing demands - from a large customised installation in a historic City hall or parliament to a plug-and-play rental system

Attractive Styling

Large Scale Systems

Streaming and Archiving

Thin Clients - Terminal Server Set-up

Perfect for Rental Solutions

Customised Front Plates

3rd Party Software Management

Touchscreen Conferencing™

The DIS Conference Discussion systems can be voice activated, push-to-talk and operator controlled

## Conference Discussion

# Simultaneous Interpretation with superb audio quality

Comfort and reliability are essential values for an interpreter, and DIS has designed the DCS 6000 system to provide all the facilities needed in one user-friendly system to minimize the risk of misinterpretation. Adding the DCS 6000 remote network surveillance for monitoring the system status and performance ensures an unbeaten uptime.

## Meets precisely your needs

When the subtlety of meaning can be lost in as much as a tone of voice, clear sound is vitally important to effective language interpretation. DIS has for many years cooperated with experienced interpreters world wide and listened to their needs providing the best speech intelligibility in one easy-to-use system.

## The best sound quality available

- The DCS 6000 handles up to 8 active microphones plus 32 interpreted language channels simultaneously - all with excellent sound quality
- Each delegate may adjust the sound level individually
- Same listening level on all channels independent of the individual interpreter
- The system offers seamless integration with different audio and video equipment such as cameras, audio-/video mixers, digital recording etc.
- Language distribution through wired channel selectors or digital infrared distribution

Wireless digital infrared language distribution – ensures a good listening comfort for all meeting participants

Baltic Meeting

EU Commission, Belgium

World Bank Meetings, Dubai

CICG, Geneva

Department of Foreign Affairs, Canada

Organization of Islamic Countries, Iran

Beijing Olympics, China

OSCE, Slovenia

EU Presidency, Finland

Since our start in 1952, customers around the world have relied on DIS for simultaneous interpretation solutions.

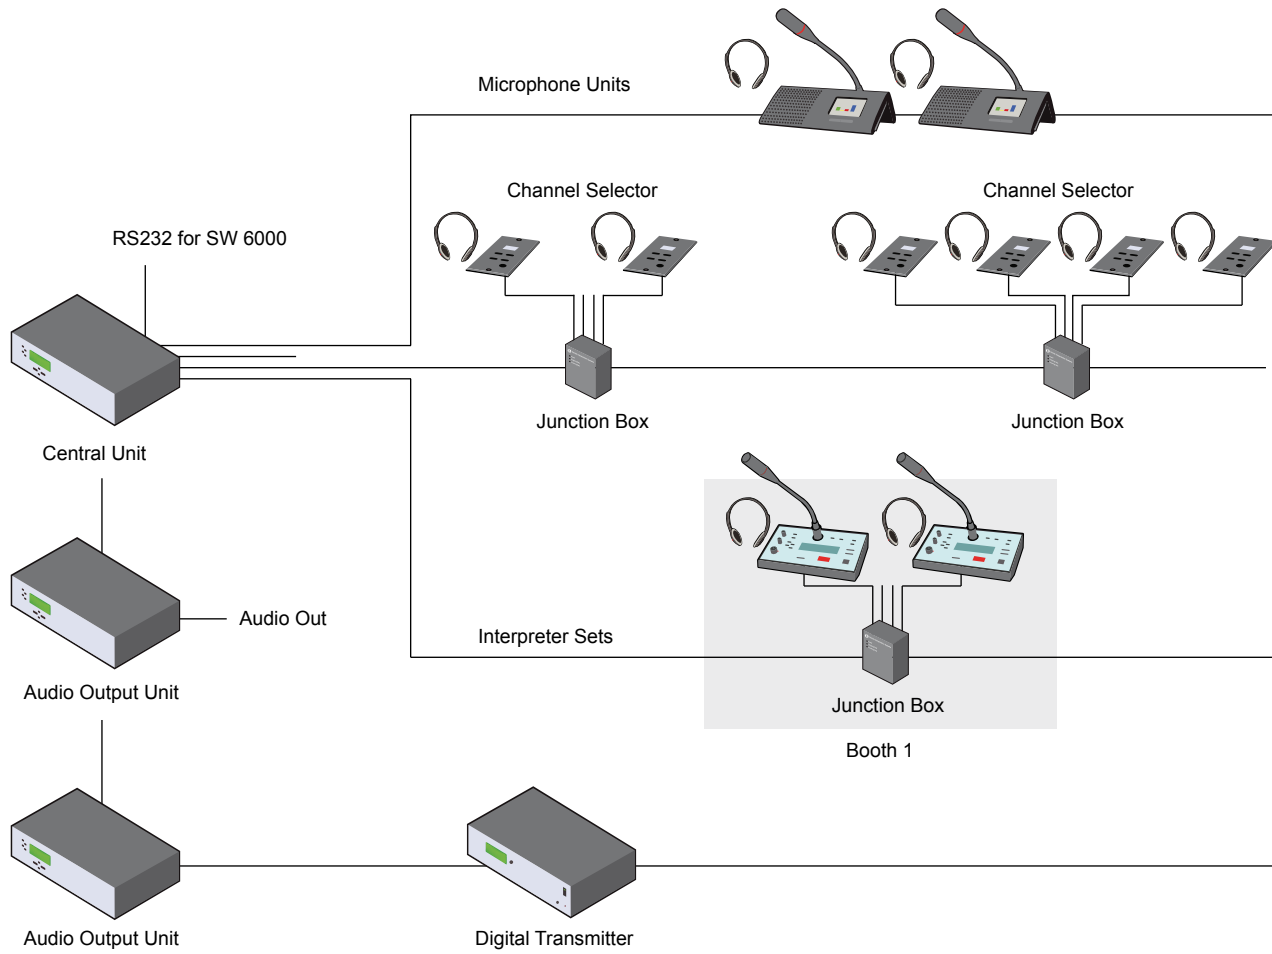

Excellent Speech Intelligibility

# VUS - Versatile, Upgradeable, Scalable

US – the unique DIS feature which provides the best cost/benefit ratio for all users and applications, from large parliamentary solutions to smaller board rooms.

**V for Versatility** – a perfect solution for both fixed installations with specific high-tech requirements and highly flexible set-ups for rental events and everything in-between. Due to the fully digital features of the system all components can be connected and combined to fit all architectural requirements of the meeting. Programmable conference units – one unit for all users!

**U for Upgradeability** – by purchasing a DCS 6000 system will result in unrivaled longevity. It can always be upgraded with the newest firmware releases (allowing you to add features such as encrypted sound, VOX, voting, as well as increase the number of languages in combination with the size of the system), and the latest SW 6000 releases are always at hand to enable upgrading the system at any time.

**S for Scalability** – from the smallest conference system all the way to a large (up to 4000 units) congress solution. The DCS 6000 system manages it all. Simply expand the system by adding extra power supplies and more units. The modularity of the DIS firmware and software applications means that you can tailor the features and facilities of the system to your exact needs and requirements. Cost effective and flexible.

# System Components DCS 6000

## Central Equipment

**CU 6011 / CU 6005**

Central Unit for interpretation, microphone and voting control

**EX 6010**

Extension Unit with power supply and repeater

**AO 6008**

8 channels analogue Audio Output unit

**JB 6002 / JB 6004**

Junction Box for connecting one unit to each of the 2/4 output connectors

**RP 6004**

Repeater for in/outgoing bus

**PS 6000**

Power Supply for providing additional power to the DCS-LAN

**AO 6004**

4 channels analogue Audio Output unit

## Interpretation Equipment / Language Distribution

**IS 6132**

Interpreter Set for up to 32 channels

**LS 6132**

Loudspeaker

**RA 6013**

Digital Radiator

**RA 6025**

Digital Radiator

**DR 6004****DR 6008****DR 6032**

Digital infrared Receiver 4, 8 or 32 channels

**CS 6032F**

Channel Selector, horizontal, flush mount

**CS 6032F**

Channel Selector, vertical, flush mount

**DT 6008 / DT 6032**

Digital infrared Transmitter with 8 or 32 channels

**DH 6021**

Delegate stereo headphone

**DH 6023**

Delegate stetosopic headphone

**DH 6025**

delegate clip headphone

**DH 6001H**

Delegate Headphone

**IH 6000**

Interpreter Headset

# Delegate/Chairman (Conference) Equipment

## DC 6990P

Universal unit with built in speaker, XLR, chipcard reader, channel selector and touch screen

## DM 6680P

Delegate unit with built in speaker, XLR, chipcard reader, channel selector (available ult. 2009)

**DM 6010P** Delegate unit with built in speaker and fixed gooseneck microphone

**DM 6020P** Delegate unit with built in speaker and XLR for GM 65xx

CM 6010P Chairman version  
CM 6020P Chairman version

**DM 6070P** Delegate unit with built in speaker, 2 channel selectors and fixed gooseneck microphone

**DM 6090P** Delegate unit with built in speaker, 2 channel selectors and XLR for GM 65xx

CM 6070P Chairman version  
CM 6090P Chairman version

## DM 6560F

Delegate Microphone unit with 3 voting buttons, built in speaker, chipcard reader and channel selector.  
CM 6560F Chairman version

## DM 6510F

Delegate Microphone unit with 3 voting buttons, built in speaker and chipcard reader.  
CM 6510F Chairman version

## CM 6060F

Chairman Microphone unit with built in speaker and channel selector.  
DM 6060F Delegate version

## MU 6040C / MU 6040D

Microphone Unit for connection of external microphone/buttons/speaker. Delegate, chairman and dual delegate versions

## FD 4020

Delegate Flush Mount unit with loudspeaker and XLR connector  
FC 4020 Chairman version

## FC 4021

Chairman Flush Mount unit with loudspeaker and XLR  
FD 4021 Delegate version

## AM 6040

Ambient Microphone unit for detecting ambient noise in a conference room

## HM 4042

Hand Microphone

## GM 6523 / GM 6524

Gooseneck Microphone  
40 cm and 50 cm long – suitable for all applications
