

# DCNM-LSSL License for language selector at 1 seat

www.boschsecurity.com

**BOSCH**  
Invented for life

- ▶ Intuitive interface for switching between floor language and other available languages
- ▶ Name of selected language is clearly displayed using original name and characters
- ▶ Interpreted speech can be listened to via headphone output of DICIENTIS Multimedia device, DICIENTIS Discussion device with touchscreen or DICIENTIS Discussion device with language selector

The DICIENTIS seat licenses allow the functionality of the DICIENTIS devices to be extended to suit the participant's needs. The 'DICIENTIS Select Language at Seat license' enables the language selection feature of the DICIENTIS Multimedia device, or DICIENTIS Discussion device with touchscreen. An individual license is required for each DICIENTIS device that requires language selection. The license is supplied as an activation code and is enabled in the same way as other activation codes in the DICIENTIS Conference System.

## Functions

The interpreted languages are distributed in the DICIENTIS System and presented in the language list of the DICIENTIS Multimedia device, DICIENTIS Discussion device with touchscreen, DICIENTIS Discussion device with language selector. The floor language is the first language in the list. The participant can select the required language from the language list, and then listen to the interpreted speech via the headphone output of the connected DICIENTIS Multimedia device, DICIENTIS Discussion device with touchscreen, DICIENTIS Discussion device with language selector.

## Language selection

The 'DICIENTIS Select Language at Seat license' enables participants to:

- Easily select the required language from the language list on the DICIENTIS multimedia, DICIENTIS Discussion device with touchscreen, or DICIENTIS Discussion device with language selector.
- Quickly switch between the floor language and other available languages.
- Conveniently listen to the selected language by using the headphone socket on the DICIENTIS multimedia, DICIENTIS Discussion device with touchscreen, DICIENTIS Discussion device with language selector.
- Next to pre-defined languages, it is possible to add user-defined language names.
- The display of the language name is configurable as name or abbreviation with an optional language number.

## Parts included

Quantity	Component
1	E-mail with license activation information.
