

CCSD-EXU

CCS 1000 D Extension Unit

BOSCH
Invented for life

Introduction Announcement

► **Availability date**
April 29, 2016

System Description

The Extension Unit (CCSD-EXU) is used in combination with a CCS 1000 D Control Unit (CCSD-CU or CCSD-CURD) to supply additional power to the CCS 1000 D Digital Discussion System. One or more Extension Units can be used to expand the CCS 1000 D Digital Discussion System up to 245 Discussion Devices.

A single Extension Unit can provide power for up to 85 additional Discussion Devices (CCSD-Dx).

Features / benefits

- Up to 85 discussion devices per CCSD-EXU
- Up to 245 discussion devices using multiple CCSD-EXU's
- Same look and feel as the CCSD-CU(RD)
- Automatically switches on when the Control Unit is switched on

Remarks:

- The CCSD-EXU can only be used for powering
