Invented for life

- ▶ Removable Battery Pack, easy to change and charge
- ▶ Configurable as a participant, dual-use or chairperson Wireless Device by use of web browser interface
- ▶ Functionality can be expanded with software modules without the need for hardware modification

The elegantly designed Wireless Device (DCNM-WD) of the DICENTIS Wireless Conference System enables participants to speak, register a request-to-speak, and listen to the speaker during a meeting. The device can be easily configured as a single-use, dual-use or chairperson Wireless Device via the web browser interface of the Wireless Access Point (DCNM-WAP).

Functions

General

- Single-use, dual-use or chairperson can be configured via the web browser interface.
- Audio mute button.
- Operates in the 2.4 GHz and 5 GHz (UNII1, 2 (extended) and 3) (license free) band.

Speech intelligibility

- Maximum speech intelligibility is guaranteed at all times.
- The Wireless Devices connects to the DCNM-WAP.
- The Wireless Devices produce crystal-clear sound due to a very high signal-to-noise ratio and smart frequency selection.

- The loudspeaker and microphone can be active at the same time for a face-to-face meeting experience. To prevent acoustic feedback, a feedback suppressor is built-in.

Zero Interference

- Based on standard WiFi.
- Seamless automatic frequency channel switching.
- WiFi coverage area range test.
- Packet Loss Concealment.

Security

- The DICENTIS Wireless Conference System and Wireless Devices have secure connectivity using WPA2 to prevent eavesdropping and unauthorized access.
- Encryption ensures that information within the system remains confidential.

Microphones

- A socket is provided to connect the pluggable microphone (DCNM-HDMIC, DCNM-MICS or DCNM-MICL, all to be ordered separately).

Headphones and loudspeakers

- The Wireless Devices accommodate two headphone connections and controls (on the left and right-hand side), so the speaker can be heard clearly even with excessive background noise.

Battery maintenance

- Rechargeable Battery Pack (DCNM-WLIION).
- The lithium-ion Battery Pack can be removed and replaced in a matter of seconds, providing maximum flexibility in recharge scheduling.
- Smart battery management via web browser interface control (battery status and usage counting time).

Controls and Indicators

- On top side:
 - Microphone with a red or green indicator:
 - **Red** indicates microphone is active.
 - **Green** indicates request-to-speak accepted.
 - LED indicators on device showing:
 - Microphone on state – **Red**.
 - Possible-to-speak – **White**.
 - Priority – **White** (Chairperson only).
 - Request-to-speak – **Green**.
